RECORDING OF ETHNIC GROUP
INFORMATION FOR PATIENTS

This Practice, in line with other healthcare providers, collects information about the ethnic group of patients. The UK is an increasingly ethnically diverse society and this information can help us plan to meet the needs of the community and ensure that everyone has equal access to the health care we provide.

Please note we are not asking about citizenship or nationality, but about the ethnic group to which you feel you belong. All the information we receive will be used and treated with the strictest confidence. Any planning information on general release will be anonymous with all names removed.

The classification is entirely voluntary but will help the NHS in Scotland to provide a better service. Please complete the form below by ticking the box of the ethnic group you feel you belong to.
